V. Function and Operation

1. Dash board

VI. Battery and Charger Operating Guide

- The charging socket is located at the left side of the motorcycle.
- The battery and charger which are provided or recommended can be used only.
- Please do not play with the charger and battery because they are not toys.
- The battery charging operation is carried out only by adults but not children.
- The battery shall be fully charged before first use; the battery charging time shall be 9-10 hours and can not exceed 15 hours.
- The lukewarm phenomenon of the charger and battery will occur during charging.

VII. Simple Fault Removal Guidance

Defective conditions	Key points of inspection
1. The ride-on not be driven.	1) Check the power switch, all plugs of the control plate under the seat, and the battery terminal line are properly inserted. 2) Check the over current protector, when the car is over loaded or blocked, the over current protector automatically disconnects the circuit to protect the motor and controlling IC board. 3) Check whether the car has been stored for a long time and its battery is not charged on time.
2. Music sound is distorted or silent	Check whether the battery has enough power, otherwise charge fully.

VIII. WARNING

1. Battery warning:

- If the product is not used for a long time, please fully charge the battery and then turn off the power switch for storing the car. The battery shall be recharged once every other month, otherwise the battery service life will be shortened or the battery cannot be charged again.
- Pay attention to the positive and negative poles of the battery during installation (the reverse connection or short circuit of the positive and negative poles of the battery is not allowed to occur).

2. Product warning:

- There may be potential sharp edges, sharp points or small parts before the assembly of this product, and therefore this product shall be assembled by the adult.
- To avoid suffocation, keep the plastic bag away from children. Dispose of all bags immediately.
- The children shall correctly use the car under the adult guidance and supervision, otherwise they may make themselves or the others injured.
- The car is suitable for being driven on the flat ground and strictly prohibited to be driven in such dangerous places as street, road, steep slope and beside swimming pool, otherwise the traffic and drowning accidents may occur.
- Please put on shoes and protection equipment before use, putting on the helmet, safety gloves, knee pads, etc. helmet, gloves, knee pads, etc.
- Small parts possibly fall off when this product is used improperly. So, it is unsuitable for children under 36 months old.
- Regularly check whether the battery, charger, wire, plug, casing and other parts are damaged; if the damage occurs, please cease to use this product until it has been repaired.
- This product is only allowed to be used by a child; the maximum load is 30kg, and therefore the overload is not allowed.
- Keep away from fire.
- The product instructions shall be kept as they contain important information.

3. WARNING:

WARNING

To reduce the risk of injury, adult supervision is required.
Strictly forbidden using on the roadways, near motor vehicles, slopes, swimming pools and where there is water;
Please wear shoes; this toy car can only be used simultaneously by one person.
Keep away from kids before assembled by adult, as there are potentially sharp edges, points, or small parts.

WARNING

Do not mix alkaline battery, standard (carbon-zinc) battery or rechargeable (nickel-cadmium) battery.

WARNING

Protective equipment should be worn. Not to be used in traffic.

WARNING

This product is unsuitable for children under 3 years due to its maximum speed.

IX. Care and Maintenance

- Regularly wipe and clean it with a piece of cloth.
- The rotating parts of the car should be checked regularly to determine whether any foreign matter obstructs the rotation and to keep lubricating state of normal operation.
